

# Manchester and District Beekeepers' Association Data Protection Policy Charity Number 1159052

### Context and overview

## **Key details**

\* Policy prepared by:

\* Approved by board / management on:

\* Policy became operational on:

Mr. D Crowe

11<sup>th</sup> January 2018.

11<sup>th</sup> January 2018.

\* Next review date: Every 12 months from becoming operational.

#### Introduction

Manchester and District Beekeepers' Association needs to gather and use certain information about individuals.

These can include customers, suppliers, business contacts, employees and other people the organization has a relationship with or may need to contact.

This policy describes how this personal data must be collected, handled and stored to meet the CIO's data protection standards — and to comply with the law.

## Why this policy exists

This data protection policy ensures Manchester and District Beekeepers' Association:

- \* Complies with data protection law and follow good practice
- \* Protects the rights of volunteers, customers and partners
- \* Is open about how it stores and processes individuals' data
- \* Protects itself from the risks of a data breach

## Data protection law

General Data Protection Regulation 2018 (As of May 2018) describes how organizations — including Manchester and District Beekeepers' Association— must collect, handle and store personal information.

These rules apply regardless of whether data is stored electronically, on paper or on other materials.

To comply with the law, personal information must be collected and used fairly, stored safely and not disclosed unlawfully.

UK charity number: 1159052

The Data Protection Act/Regulation is underpinned by eight important principles. These say that personal data must:

- 1. Be processed fairly and lawfully
- 2. Be obtained only for specific, lawful purposes
- 3. Be adequate, relevant and not excessive
- 4. Be accurate and kept up to date
- 5. Not be held for any longer than necessary
- 6. Processed in accordance with the rights of data subjects
- 7. Be protected in appropriate ways
- 8. Not be transferred outside the European Economic Area (EEA), unless that country or territory also ensures an adequate level of protection

## People, risks and responsibilities

### **Policy scope**

This policy applies to:

- \* The Association Headquarters of Manchester and District Beekeepers' Association
- \* All Trustees and volunteers of Manchester and District Beekeepers' Association
- \* All contractors, suppliers and other people working on behalf of Manchester and District Beekeepers' Association

It applies to all data that the CIO holds relating to identifiable individuals, even if that information technically falls outside of the General Data Protection Regulation 2018 (As of May 2018). This can include:

- \* Names of individuals
- \* Postal addresses
- \* Email addresses
- \* Telephone numbers
- \* Plus any other information relating to individuals to support their membership

## **Data protection risks**

This policy helps to protect Manchester and District Beekeepers' Association from some very real data security risks, including:

- \* Breaches of confidentiality. For instance, information being given out inappropriately.
- \* Failing to offer choice. For instance, all individuals should be free to choose how the CIO uses data relating to them.
- \* Reputational damage. For instance, the CIO could suffer if hackers successfully gained access to sensitive data.

## Responsibilities

Everyone who volunteers for or with Manchester and District Beekeepers' Association has some responsibility for ensuring data is collected, stored and handled appropriately.

Each Trustee or Volunteer that handles personal data must ensure that it is handled and processed in line with this policy and data protection principles.

However, these people have key areas of responsibility:

- \* The Trustees are ultimately responsible for ensuring that Manchester and District Beekeepers' Association meets its legal obligations.
- \* The Trustees are responsible for:
- o Keeping all Volunteers updated about data protection responsibilities, risks and issues.
- o Reviewing all data protection procedures and related policies, in line with an agreed schedule.
- o Arranging data protection training and advice for the people covered by this policy.
- o Handling data protection questions from volunteer and anyone else covered by this policy.
- o Dealing with requests from individuals to see the data Manchester and District Beekeepers' Association holds about them (also called 'subject access requests').
- o Checking and approving any contracts or agreements with third parties that may handle the CIO's sensitive
- \* The Trustees are responsible for:
- o Ensuring all systems, services and equipment used for storing data meet acceptable security standards.
- o Performing regular checks and scans to ensure security hardware and software is functioning properly.
- o Evaluating any third-party services the CIO is considering using to store or process data. For instance, cloud computing services.
- \* The Trustees are responsible for:
- o Approving any data protection statements attached to communications such as emails and letters.
- o Addressing any data protection queries from journalists or media outlets like newspapers.
- o Where necessary, working with other volunteer to ensure marketing initiatives abide by data protection principles.

## General volunteer guidelines

- The only people able to access data covered by this policy should be those who need it for their work.
- Data should not be shared informally. When access to confidential information is required, volunteers can request it from a Trustee.
- Manchester and District Beekeepers' Association will provide training to all Trustees and volunteers to help them understand their responsibilities when handling data.

- Trustees and volunteers should keep all data secure, by taking sensible precautions and following the guidelines below.
- In particular, strong passwords must be used and they should never be shared.
- Personal data should not be **disclosed to unauthorized people**, either within the CIO or externally.
- Data should be **regularly reviewed and updated** if it is found to be out of date. If no longer required, it should be deleted and disposed of.
- \* Volunteers should request help from a Trustee if they are unsure about any aspect of data protection.

## Data storage

These rules describe how and where data should be safely stored. Questions about storing data safely can be directed to the Chair of Trustees.

When data is **stored on paper**, it should be kept in a secure place where unauthorized people cannot see it.

These guidelines also apply to data that is usually stored electronically but has been printed out for some reason:

- When not required, the paper or files should be kept in a locked drawer or filing cabinet.
- Trustees and volunteers should make sure paper and printouts are **not left where unauthorized people could see them**, like on a printer.
- Data printouts should be shredded and disposed of securely when no longer required.

When data is **stored electronically**, it must be protected from unauthorized access, accidental deletion and malicious hacking attempts:

- Data should be protected by strong passwords that are changed regularly and never shared between employees.
- If data is **stored on removable media** (like a CD or DVD), these should be kept locked away securely when not being used.
- Data should only be stored on **designated drives and servers**, and should only be uploaded to an approved cloud computing services.
- Servers containing personal data should be sited in a secure location, away from general office space.

## Manchester & District Beekeepers' Association

Promoting the art of beekeeping since 1895
UK charity number: 1159052

- Data should be **backed up frequently**. Those backups should be tested regularly, in line with the CIO's standard backup procedures.
- All servers and computers containing data should be protected by approved security software and a
  firewall.

### Data use

Personal data is of no value to Manchester and District Beekeepers' Association unless the Association can make use of it. However, it is when personal data is accessed and used that it can be at the greatest risk of loss, corruption or theft:

- When working with personal data, Trustees and volunteers should ensure the screens of their computers are always locked when left unattended.
- Personal data should not be shared informally. In particular, it should never be sent by email, as this form of communication is not secure. Unless in an encrypted attached file.
- Data must be encrypted before being transferred electronically. The Chair of Trustees can explain how to send data to authorised external contacts.
- Personal data should never be transferred outside of the European Economic Area.
- Trustees and volunteers should not save copies of personal data to unauthorized computers. Always access and update the central copy of any data.

## Data accuracy

The law requires Manchester and District Beekeepers' Association to take reasonable steps to ensure data is kept accurate and up to date.

The more important it is that the personal data is accurate, the greater the effort Manchester and District Beekeepers' Association should put into ensuring its accuracy.

It is the responsibility of all Trustees/Volunteers who work with data to take reasonable steps to ensure it is kept as accurate and up to date as possible.

- Data will be held in as few places as necessary. Trustees and volunteers should not create any unnecessary additional data sets.
- Trustees and volunteer should take every opportunity to ensure data is updated. For instance, by confirming a member's details when they contact the association when appropriate.

## Manchester & District Beekeepers' Association

Promoting the art of beekeeping since 1895
UK charity number: 1159052

- Manchester and District Beekeepers' Association will make it easy for data subjects to update the
  information Manchester and District Beekeepers' Association holds about them. For instance, via the
  CIO website.
- Data should be updated as inaccuracies are discovered. For instance, if a member can no longer be reached on their stored telephone number, it should be removed from the database.
- \* It is the Memberships Secretary responsibility to ensure membership databases are checked against BDI and BBKA databases every six months.

## Subject access requests

All individuals who are the subject of personal data held by Manchester and District Beekeepers' Association are entitled to:

- \* Ask what information the CIO holds about them and why.
- \* Ask how to gain access to it.
- \* Be informed how to keep it up to date.
- \* Be informed how the CIO is meeting its data protection obligations.

If an individual contacts the CIO requesting this information, this is called a subject access request.

Subject access requests from individuals should be made by email, addressed to the Secretary at contact@mdbka.com. The Secretary can supply a standard request form, although individuals do not have to use this.

Individuals will be charged £10 per subject access request. The Secretary will aim to provide the relevant data within 30 days.

The Secretary will always verify the identity of anyone making a subject access request before handing over any information.

## Disclosing data for other reasons

In certain circumstances, the Data Protection Act allows personal data to be disclosed to law enforcement agencies without the consent of the data subject.

Under these circumstances, Manchester and District Beekeepers' Association will disclose requested data. However, the Secretary will ensure the request is legitimate, seeking assistance from the Trustees and/or from legal advisers where necessary.

## **Providing information**

Manchester and District Beekeepers' Association aims to ensure that individuals are aware that their data is being processed, and that they understand:

- How the data is being used
- How to exercise their rights

To these ends, the CIO has a privacy statement, setting out how data relating to individuals is used by the CIO.

[This is available on request. A version of this statement is also available on the CIO's website.]
